As a developer, you have a choice of earning two different credentials to highlight your Microsoft .NET knowledge and expertise: Microsoft Certified Application Developer (**MCAD**) and Microsoft Certified Solution Developer (**MCSD**). Discover the certification/skill set which best suits your skills and career goals, and then choose the training path best suited for you.

Your **first** step is to identify your role in the software development cycle:

Your **second** step is to determine the courses you need:
